Tomlins, Scott

S.A.T. has >1yr ago received travel support from, and had a sponsored research agreement with Compendia Bioscience/Life Technologies/ThermoFisher that provided access to the targeted sequencing panel used herein. No other aspect of this study was supported by Compendia Bioscience/Life Technologies/ThermoFisher. The University of Michigan has been issued an unrelated patent on ETS gene fusions in prostate cancer on which S.A.T. is a co-inventor. The diagnostic field of use has been licensed to Hologic/Gen-Probe, Inc., which has sublicensed rights to Roche/Ventana Medical Systems. S.A.T. has unrelated sponsored research agreement with Astellas and GenomeDX. S.A.T. has served as a consultant for and received honoraria from Roche/Ventana Medical Systems, Almac Diagnostics, Janssen, AbbVie and Astellas/Medivation (for other cancer types). S.A.T. is a co-founder of, consultant for and Laboratory Director of Strata Oncology (does similar testing to subject of abstract).
