

# APM Disclosure Reporting

The Academy of Psychosomatic Medicine requires disclosure by all program planners and presenters of CME activities of any financial or other affiliation with commercial organization(s) that may have a direct or indirect interest in the subject matter of the educational activity. A “financial interest” may include, but is not limited to: being an employee and/or being a shareholder in the organization; being on retainer with the organization; or having research or honoraria paid by the organization. An “affiliation” may include holding a position on an advisory committee, speakers’ bureau or some other role or benefit to a supporting organization.

APM administers a process by which potential conflicts are identified and resolved prior to the educational activity. Furthermore, the audience of each session must be informed of the presenters’ or program planners’ affiliations with every commercial interest by acknowledging such in the printed program and orally or visually (incorporated into slide presentation) at the start of a session.

APM only identifies active disclosure information, meaning that the absence of a speaker from this list indicates that neither they, nor an immediate member of their family have any financial relationships or potential conflict of interest to disclose.

Program Participant	Disclosures
Karen Anderson, MD	azevan (Consultant); teva (Speaker’s Bureau, Advisory Committee/Board Member, Consultant)
Sheldon Benjamin, MD, DLFAPA, Brain Educators, LLC (Partners (both) & author (SB)-publisher of neuropsychiatry education materials) DFANPA, FAAN	
Jordi Blanch, MD, PhD	Ferrer (Honorarium, Advisory Committee/Board Member); Gilead (Honorarium); Janssen Cilag (Honorarium); MSD (Grant/Research Support)
