

Advanced Practice Provider (APP) GRAND ROUNDS 2015

The purpose of APP Grand Rounds is to enhance the ability of PAs and APNs to recognize, diagnose and manage common medical conditions across the continuum of presentation in the office/outpatient setting to exacerbation of these conditions requiring management in an acute care setting.

Introduction to CT Scanning: Pearls and Pitfalls

Keith E. Baynes, MD

Assistant Professor
Department of Radiology
Froedtert & The Medical
College of Wisconsin

The learning objectives for this presentation are:

- Describe basic technical considerations of CT
- Review safety considerations of CT
- Review various cases to illustrate the variety of CT protocols available
- Review what type of CT to order to get the best study possible for your patient
- Review CT anatomy for various parts of the body and show high yield pathologic cases

This lecture will be videotaped and available in the Froedtert Learning Center. No CE credit will be awarded for viewing online presentations.
